How does your program define attendance? How about the schools youth attend and the programs you partner with?

What is the definition in the applicable law?

What are the differences in definitions? How do these differences impact families, your program, and any partners?

Does the definition align with how the tracking is done?

How effective is the tracking? Does it align with what learning should be accomplishing?

Identifying Implementation Challenges

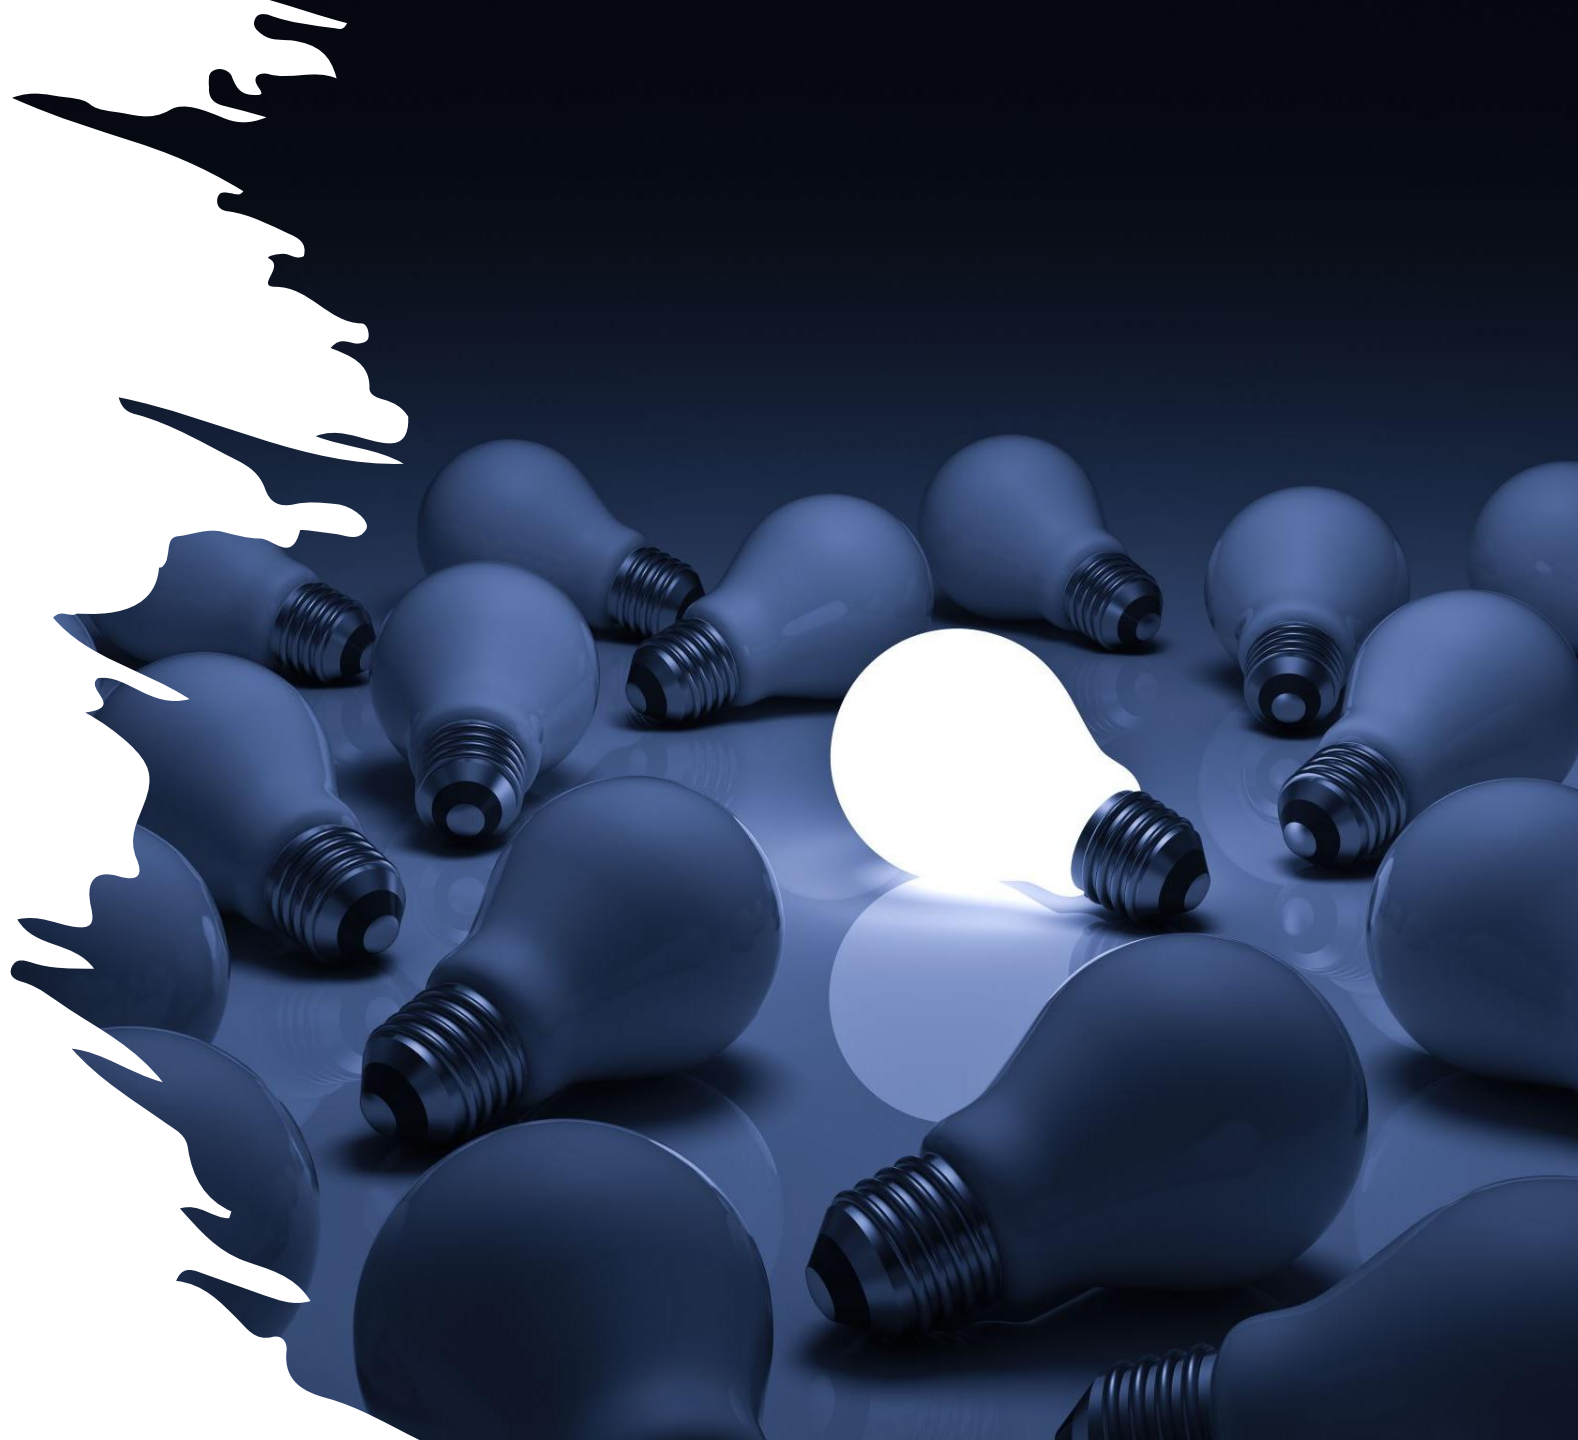

Were the challenges around people, technology, health, or something else?

Were these issues that were present before the pandemic?

How were these issues worsened by the pandemic?

Exploring Solutions and Resources

- What kinds of innovation was created?
- How effective were the solutions?
- Were there resources? Where or how were they found?
